Maths	<p>Recognise the PV of each digit in a three-digit number (hundreds, tens and ones). Find 10 more and 10 less than a given number Count on in multiples of 2,3 and 4 Count up and down in tenths using a number line. Identify, represent and estimate numbers using different representations</p>	<p>Partition a three-digit number to support addition and subtraction Find 10 or 100 more or less than a given number Count from 0 in multiples of 4</p>	<p>Compare and order numbers up to 1000 Read and write numbers up to 1000 in numerals and words Count from 0 in multiples of 50 and 100</p>	<p>Count from 0 in multiples of 4 and 8 Count on from 0 in multiples of 50 and 100</p>	<p>Count up and down in tenths</p>	<p>Generate and derive number bonds to and within 1000 Connect tenths to place value , decimal measures and to division by 10 Begin to see that decimal fractions are linked to proper fractions (such as $\frac{1}{2} = 0.5$ and $\frac{1}{10} = 0.1$)</p>

Year 3	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Science	<p>Animals inc humans: skeletons and muscles Identify that humans and some other animals have skeletons and muscles for support, protection and movement.</p>	<p>Forces and magnets Compare how things move on different surfaces. Notice that some forces need contact between two objects, but magnetic forces can act at a distance. Observe how magnets attract or repel each other and attract some materials and not others. Compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet and identify some magnetic materials. Describe magnets as having two poles. Predict whether two magnets will attract or repel each other, depending on which poles are facing.</p>	<p>Rocks and soils Compare and group together different kinds of rocks on the basis of their appearance and simple physical properties. Describe in simple terms how fossils are formed when things that have lived are trapped within rock. Recognise that soils are made from rocks and organic matter.</p>	<p>Plants Identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers. Explore the requirements of plants for life and growth (air, light, water, nutrients from soil and room to grow) and how they vary from plant to plant. Investigate the way in which water is transported within plants. Explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal.</p>	<p>Animals inc humans: nutrition Identify that animals, including humans need the right types and amount of nutrition and that they cannot make their own food: they get nutrition from what they eat.</p>	<p>Light and shadows Recognise that they need light in order to see things and that dark is absence of light. Notice that light is reflected from surfaces. Recognise that light from the sun can be dangerous and that there are ways to protect their eyes. Recognise that shadows are formed when the light from a light source is blocked by a solid object. Find patterns in the way that the size of the shadows change.</p>
