

Thank You!

For helping to keep our children safe. Our queues were much quieter this morning and more children and parents were keeping their distance from each other.

The senior leadership team from both the Infant and Junior Schools have reviewed our risk assessments again this morning and have made the following change to help those parents who are dropping off/collecting more than one child:

From TODAY, when arriving and collecting your children, please use the time slot that your youngest child has been given and drop them off first. You can then drop off/collect your other children in ascending age order without delay.

Both schools are aware that this situation could change your child's start time into their class. Be assured that your child will not miss out on key learning opportunities. Thank you for your patience, please ask your child's class teacher if you have any further questions.
